WORK EXPERIENCE

UI/UX Intern *Cariclub*

May 2020 - July 2020

- Led design of profile pages and application tracking that resulted in 30 board member placements in three months and an increase in donations by 15%.
- Executed design within the context of development sprints focused on making open, remote-friendly non-profit board positions visible to users on the discover and non-profit profile pages.
- Simultaneously worked on the application tracking system to shorten the timeline between an initial match and a board placement.

UX Researcher (VR) *Design & Augmented Intelligence Lab*

February 2019 - May 2019

- Spearheaded research project studying the effects of environmental infrastructure on human stress and anxiety levels.
- Led team of research assistants to analyze data collected to inform urban designs geared towards increasing female safety.
- Measured the responses of participants, using an electroencephalogram, as they interacted with various architectural designs using virtual reality technology.

Design Intern *OTJ Architects*

June 2019 - August 2019

- Worked with Fortune500 companies to identify workplace culture and productivity goals.
- Delivered corporate interior redesigns to create an office flow that encouraged connectivity and collaborative opportunities.
- Responsible for design and implementation of RIAA's companywide graphics, lead in planning the use and layout of McKinsey's DC office space, and key contributor on several other projects.

UX Writing Intern *Green Business Bureau*

June 2018 - August 2018

- Conducted a user experience audit of the Green Business Bureau website to improve navigation for customers looking to obtain online sustainability assessments.
- Wrote articles for the Green Business Bureau blog on the long-term financial benefits of investing in green business practices, and the importance of smart consumerism.

EDUCATION

Cornell University

B.Sci - Design & Enviro. Analysis

August 2017 - May 2021
